Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

Read more about Early Journal Content at http://about.jstor.org/participate-jstor/individuals/early-journal-content.

JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

PUBLICATIONS

OF THE

ASTRONOMICAL SOCIETY

OF THE PACIFIC.

VOLUME III.

1891.

SAN FRANCISCO:
PRINTED FOR THE SOCIETY.
1891.

TABLE OF CONTENTS.*

Publications No. 13, January 1, 1891.

PAGE

List of Members of the Society, January 1, 1891 1

List of Corresponding Observatories and Institutions 8

Publications No. 14, January 14, 1891.

Observations and Drawings of *Saturn*, 1879–1889, by EDWARD S. HOLDEN 11

Drawings of *Saturn*, 1879–1889 . . . . . to face page 11

Index-Map of the Moon, [by Professor CHARLES A. YOUNG] . . . 20

The Observatory of Swarthmore College, by Miss SUSAN J. CUNNINGHAM, Director 21

An Account of an Experiment made to determine whether Gravitation-force varies with Temperature, by A. E. KENNELLY 23

Coronal Extension, by C. M. CHARROPPIN, S. J. 26

The Kenwood Physical Observatory, by GEORGE E. HALE 30

The Law of the Solar Corona, by Professor FRANK H. BIGELOW . . 34

Notices from the Lick Observatory 40

- The International Astrophotographic Congress and a Visit to Certain European Observatories, etc. [by Lieut. WINTERHALTER, U. S. N.] 40
- Bright Meteor observed in Daylight, by C. F. MERRILL 41
- Astronomy and Numismatics 41
- The Motion of the Solar System in Space [by Dr. OSCAR STUMPE]; reviewed by EDWARD S. HOLDEN 42
- Addendum to LUDLAM'S Astronomical Observations (1769), by EDWARD S. HOLDEN 45
- THOLLON'S Map of the Solar Spectrum; notice by EDWARD S. HOLDEN 45
- Satellites of *Mars*, 1890, EDWARD S. HOLDEN and J. M. SCHAEBERLE 46
- Solar Parallax from the Transit of *Venus* photographs of 1882 (results derived by Professor HARKNESS) 46
- Spectrographic Observations of *Spica* at Potsdam (A. N. 2995); notice by J. E. KEELER 46
- Announcement of an English Translation of Dr. DZIOBEK'S Treatise on the Mathematical Theories of Planetary Motion (translation by Professor M. W. HARRINGTON); notice by EDWARD S. HOLDEN 49

* To the Binder: this should precede page 1, Volume III.

Biography of Professor W. C. BOND 50
Scientific Expedition to the Summit of Mont Blanc [by M. JANSSEN]; notice by EDWARD S. HOLDEN 50
ARGELANDER'S D. M. maps wanted by the Lick Observatory . 53
On the Ring-Shaped Mountains of the Moon [by Dr. H. EBERT]; reviewed by EDWARD S. HOLDEN 53
Scientific Visitors to the Lick Observatory [H. F. NEWALL, esq., Lord ROSSE, Professor AUWERS, Professor VOGEL] 56
Georgetown College Observatory 57
Observatory of the Catholic University of America 57
Comparison of Some Photographs and Drawings of the Nebula in *Orion*, by EDWARD S. HOLDEN 57
Photograph of the Cluster M. 34 = G. C. 584 [made at the Lick Observatory and compared with Mr. PIHL'S Map], by EDWARD S. HOLDEN 62
Moon-Negatives taken at the Lick Observatory, 1888 and 1890, by Prof. S. W. BURNHAM (page 62), by others (page 64) . . . 62
Negatives of *Jupiter* made at the Lick Observatory during 1890, in the focus (page 65), enlarged (page 66) 65
Predictions relating to the Annular Eclipse of the Sun, June 6, 1891, and to the Transit of *Mercury*, May 9, 1891, by J. M. SCHAEBERLE 67
(*See*, also, page 74.)
SCHMIDT'S Drawings of *Nebula Orionis*, 1860–75, compared with photographs, by EDWARD S. HOLDEN 68
(List of) the Comets of 1890 69
Corrections to *Publications* A. S. P., nos. 13 and 14 69
Some Physical Phenomena involved in the Mechanical Theory of the Corona, by J. M. SCHAEBERLE 70
Predictions relating to the Annular Eclipse of the Sun, June 6, 1891, by J. M. SCHAEBERLE 74
United States Naval Observatory, by EDWARD S. HOLDEN . . 74
Minutes of the Meeting of the Directors, January 31, 1891 76
List of Members elected 76
Amendment to the By-Laws 77
Organization of the Chicago Section, A. S. P. 77
Seal of the Society adopted 78
Engraving of the Seal, A. S. P. . . . . to face page 78
The *Life-Membership Fund* established 78
Members of the Committee on the Comet-Medal appointed . . 78
Notice to Members (regarding official stationery) 78
Resignations accepted 78
Minutes of the Meeting of the Society, January 31, 1891 79

Minutes of a Meeting held November 20, 1890, for the purpose of organizing a Chicago Section of the Society 79
List of Members of the Chicago Section, A. S. P. 80
Minutes of the Second Meeting of the Chicago Section, A. S. P., January 2, 1891 81
List of new members 82
Officers of the Society 83
Officers of the Chicago Section, A. S. P. 83
Notice to members 83

Publications No. 15, March 28, 1891.

The Carleton College Observatory, by Professor W. W. PAYNE, Director 85
Engraving of the Observatory . . . . . to face page 85
Engraving of the REPSOLD Meridian Circle . . . . to face page 86
Corrections to WATSON'S Theoretical Astronomy, by W. W. CAMPBELL 87
(*See*, also, pages 223 and 379.)
The Fireball in RAPHAEL'S *Madonna di Foligno*, by Professor H. A. NEWTON 91
On the Similarity of Certain Orbits in the Zone of Asteroids (Second Paper) by Professor D. KIRKWOOD 95
Astronomical Observations in 1890, by TORVALD KÖHL 97
Plate of drawings of Sun's spots . . . . . to face page 101
Address of the Retiring President of the Society, at the Third Annual Meeting, March 28, 1891, by EDWARD S. HOLDEN 103
The Astronomical Observatory of the University of Alabama . . . 110
Engraving of the buildings . . . . . to face page 110
(Fourth) Award of the DONOHOE Comet-Medal (to Dr. R. SPITALER) 111
(Fifth) Award of the DONOHOE Comet-Medal (to Prof. T. ZONA) . . 111
Corrigenda to Volume II, pages 102, 177, 181, 182, 183, 187, by Prof. I. STRINGHAM 112
Astronomical Instruments in Course of Construction (by FAUTH & Co.) 113
The August Meteors, by W. H. S. MONCK 114
Notices from the Lick Observatory 123
The Observatory of Nice, by EDWARD S. HOLDEN 123
Engraving of the Nice Observatory . . . . . to face page 123
Engraving of the Great Dome . . . . . to face page 124
Extracts from letters written by GEORGE P. BOND of Harvard College Observatory, 1857–1860 124
Grant to the Lick Observatory from the Smithsonian Institution 128

Harvard College Observatory Expedition to the Southern Hemisphere 128
Spectroscopic Investigations at the JOHNS HOPKINS University [by Professor H. A. ROWLAND] 130
Recent Important Publications (list of) 131
A Hurricane in an Observatory and what it did there ! 131
Artificial Earthquake of January 31, 1891 132
Magnetic Constants at Mount Hamilton (determined by officers of the U. S. Coast and Geodetic Survey in 1888, October) . . 133
Who discovered the Optical Properties of Lenses? 133
Letter of Professor H. G. HANKS, etc. 133
Comments of Professor STRINGHAM 136
Comments of Professor HOLDEN 139
(*See*, also, pages 239 and 240.)
Photographs of the Nebula of *Orion* with the Great Telescope; note by EDWARD S. HOLDEN 141
Duplicates in the Library of the Lick Observatory 142
Books wanted in the Library of the Lick Observatory 143
Government Aid to Astronomy in France and Belgium 143
(Recent) Additions to the 36-inch Equatorial 144
A Brilliant Meteor 144
Minutes of the Meetings of the Directors, March 28, 1891 . . . 145, 146
Members elected 145
Resignation accepted 145
Amended Regulations for the Bestowal of the Comet-Medal . . 145
Officers elected and Committees appointed for the coming year . 147
Resolutions adopted 147
Annual Meeting of the Society, March 28, 1891 147
Election of Directors 147
Annual Report of the Treasurer 148
Report of the Auditing Committee 148
Report of the Library Committee 149
Report of the Committee on the Comet-Medal 149
Appointment of a Committee on the World's Columbian Exposition 150
Address to the Society by the Earl of ROSSE 150
Minutes of the Third and Fourth Meetings of the Chicago Section, A. S. P. (February 2 and March 2, 1891) 151
Members elected 151, 152
Officers of the Society 152
Officers of the Chicago Section, A. S. P. 152
Notice to Members 153

Publications No. 16, June 13, 1891.

The Solar Corona of January, 1889, from the Photographs, by Professor H. S. PRITCHETT 155
Artotype of the Corona . . . . . to face page 155
Lunar Work for Amateurs, by THOMAS GWYN ELGER, F. R. A. S. . 162
A few hints to Beginners in Solar Observation, by Miss E. BROWN . 172
The Solar Eclipse of June 6, 1891, by ORRIN E. HARMON 175
On the Thermometric Chronometer of the Lick Observatory, by A. O. LEUSCHNER 177
The System of the Stars (by Miss AGNES M. CLERKE), reviewed by GEORGE E. HALE 180
By-Laws of the Astronomical Society of the Pacific 194
Notice of Dr. DREYER'S Biography of TYCHO BRAHE, by TORVALD KÖHL 199
The Period of the Rotation of the Sun near the Poles, as derived from the Coronas of 1878 and 1889, by Prof. FRANK H. BIGELOW . 201
Full page diagram . . . . . to face page 211
(Sixth) Award of the DONOHOE Comet-Medal (to E. E. BARNARD) . 216
Visibility of Interference-Fringes in the Focus of a Telescope, by ALBERT A. MICHELSON 217
Report made to the Director of the Astronomical Observatory of Tacubaya, in regard to Observations of the Zodiacal Light (translated by E. J. MOLERA) 220
Note on Dark Transits of *Jupiter's* Satellites, by JOHN TEBBUTT, F. R. A. S 221
Subscriptions to the Memorial to the late Father PERRY 222
Errata in Watson's Theoretical Astronomy, by Prof. G. C. COMSTOCK 223
(*See*, also, pages 87 and 379.)
Observations of the Transit of *Mercury*, May 9, 1891 223
At Berkeley (Professor SOULÉ) 223
At Carson (Professor FRIEND) 225
At Leavenworth (A. HUNNIUS) 225
At Mills College (Professor KEEP) 225
At Mount Hamilton (Messrs. HOLDEN and KEELER) 225
At Mount Hamilton (Messrs. BURNHAM and SCHAEBERLE) . . . 227
At Mount Hamilton (Mr. BARNARD) 230
At Mount Hamilton. Note on the Visibility of *Mercury* during Transit, by E. E. BARNARD 233
At Oakland (Mr. C. BURCKHALTER) 234
At Ogden (Mr. W. C. PARMLEY) 235
At Reno (Gen. C. W. IRISH) 236
At San Francisco (Mr. W. S. MOSES) 237

At San Francisco (Mr. W. M. PIERSON) 238
At San José (Professor T. C. GEORGE) 239
Who Discovered the Optical Properties of Lenses? 239
Note by Dr. J. L. E. DREYER 240
Note by Professor G. V. SCHIAPARELLI 240
(*See*, also, page 133.)
Observations of the Solar Eclipse of June 6, 1891, at the Lick Observatory, Mt. Hamilton, by Messrs. HOLDEN, SCHAEBERLE, BARNARD, TREAT 241
Observations of the Solar Eclipse, June 6, 1891
At Oakland (Mr. C. BURCKHALTER) 241
At Chehalis (Mr. O. HARMON) 241
At Reno (Gen. C. W. IRISH) 242
Notices from the Lick Observatory 243
The Imperial Observatory of Vienna, by EDWARD S. HOLDEN . 243
Engraving of the Building . . . . . to face page 243
Engraving of the 27-inch GRUBB Equatorial . . to face page 244
Engraving of the 26-inch CLARK Equatorial . . to face page 246
List of Earthquakes in California during the year 1890, by J. E. KEELER 247
Engraving by DAUMIER "The Earthquake at Bordeaux" . . to face page 248
Examination of the Lick Observatory Negatives of the Moon, by EDWARD S. HOLDEN 249
Permanent Improvements at Mount Hamilton 251
Appointment of Mr. KEELER to the Allegheny Observatory and of Mr. CAMPBELL to the Lick Observatory 251
Elements and Ephemeris of BARNARD'S Comet (March 29, 1891), by J. M. SCHAEBERLE 252
New Rill on the Floor of the Lunar Crater *Thebit*, recently discovered in the Lick Observatory Photographs of the Moon (translation of a letter of Professor L. WEINEK) 252
Telescope and Chronometer for Sale 253
Scientific Visitors to the Lick Observatory. (Dr. A. MARCUSE, Mr. E. D. PRESTON) 254
(Obituary Notice of) JOHN LE CONTE, born 1818, died 1891, by EDWARD S. HOLDEN 254
Portrait of Professor LE CONTE . . . . . to face page 254
Obituary Notice of Professor SCHOENFELD, by Professor A. KRUEGER (translated by OTTO VON GELDERN) 255
Grant to the Lick Observatory from the ELIZABETH THOMPSON SCIENCE FUND 257
(List of) Recent Important Publications 258

Minutes of the Meeting of the Directors, June 13, 1891 259
Members elected 259
Resignations, appointments, etc. 259
Minutes of the Meeting of the Society, June 13, 1891 260
Minutes of the Fifth and Sixth Meetings of the Chicago Section, A. S. P. (April 7 and May 5, 1891) 261
Members elected 261
Officers of the Society 262
Officers of the Chicago Section, A. S. P. 262
Notice to Members 262

Publications No. 17, September 5, 1891.

Observation of *Jupiter* and of his Satellites with the 36-inch Equatorial of the Lick Observatory (1888–1890) 263
The Observatory of the U. S. Military Academy at West Point, by Lieut. F. S. HARLOW 273
Measurement of *Jupiter's* Satellites by Interference, by A. A. MICHELSON 274
Full page diagram . . . . . to face page 275
Notices from the Lick Observatory 279
The University Observatory of Strassburg, by EDWARD S. HOLDEN 279
Cuts of the Observatory and of various instruments made by the REPSOLDS . . . . . to face pages 279, 280, 281, 282, 283
Observations of the Solar Eclipse of June 6, 1891, at Ogden, Utah, by W. C. PARMLEY 282
Scientific Visitors to the Lick Observatory (Prof. MENDENHALL, Mr. FRÉMONT MORSE) 282
Special Students at Mount Hamilton (Professors TREAT and TAYLOR) 283
Appointment of Dr. KIRKWOOD to the STANFORD University . . 283
Observations of the planet *Uranus* with the 36-inch Equatorial, by EDWARD S. HOLDEN, J. M. SCHAEBERLE and JAMES E. KEELER 283
Full page diagram . . . . . to face page 284
History of Scientific Societies 284
Examination of *Uranus* for the detection of new Satellites, by EDWARD S. HOLDEN and J. M. SCHAEBERLE 285
Discovery of a new Crater on the Moon Negatives of the Lick Observatory, by Professor WEINEK 285
Appointment of Dr. HENRY CREW as Astronomer in the Lick Observatory 287
Permanent Improvements at Mount Hamilton 287

Erratum in NEISON'S Moon 287
On the Determination of Stellar Magnitudes by Means of Photography (translation of a letter by Dr. C. V. L. CHARLIER) . 288
Note on the above by J. M. SCHAEBERLE 290
Errata in the Second Armagh Catalogue of Stars, communicated by Dr. J. L. E. DREYER 292
Forest fires at Mount Hamilton, July, 1891 (letter of EDWARD S. HOLDEN) 292
Scientific Visitors to the Lick Observatory (Dr. DAVID STARR JORDAN, Prof. GEORGE CHRYSTAL, F. R. S., Prof. MICHELSON) 296
Atmospheric Absorption of the Photographic Rays, by J. M. SCHAEBERLE 296
Minutes of the Meeting of the Directors, September 5, 1891 298
Members elected 298
Committee appointed 298
Minutes of the Meeting of the Society, September 5, 1891 299
Minutes of the Seventh and Eighth Meetings of the Chicago Section, A. S. P., (June 15 and July 14, 1891) 300
Members elected 300, 301
Officers of the Society 302
Officers of the Chicago Section 302
Notice to Members 302

Publications No. 18, October 1, 1891.

Catalogue of the Library of the Astronomical Society of the Pacific, prepared by OTTO VON GELDERN 303
Part I.—Catalogue of Bound Books 305
Part II.—Catalogue of Unbound Books and Pamphlets 320

Publications No. 19, November 28, 1891.

Enlarged Drawings from Lunar Photographs taken at the Lick Observatory, by Professor Dr. L. WEINEK, of Prague 333
Two Lithographs of the Lunar Crater *Archimedes*, by Professor WEINEK . . . . . to face page 333
Note to Professor WEINEK'S Paper, by EDWARD S. HOLDEN . . 344
Estrellas Fugaces, Bólidos, y Aerolitos, estudio por el Dr. JESUS MUÑOZ TÉBAR [Abstract] 345
Bestimmung von Parallaxen durch Registrir-Beobachtungen am Meridian Kreise, von Dr. J. C. KAPTEYN (Review by Professor LEWIS BOSS) 346
Observations of the Dark Transit of *Jupiter's* Third Satellite on August 20, 1891, at Windsor, N. S.W., by JOHN TEBBUTT, F.R.A.S. 353

(Seventh) Award of the DONOHOE Comet-Medal (to E. E. BARNARD) 354

The Forms of *Jupiter's* Satellites, by J. M. SCHAEBERLE and W. W. CAMPBELL 355

Path of a Shooting Star, by TORVALD KÖHL 358

Observations of Markings on *Jupiter's* Third Satellite, by J. M. SCHAEBERLE and W. W. CAMPBELL 359

Plates of *Jupiter's* Satellite III . . . . . to face pages 359 and 361

Notices from the Lick Observatory.

FRANZ FRIEDRICH ERNST BRUENNOW, translated from the German of Professor A. KRUEGER, by J. M. SCHAEBERLE . . 367

Portrait of Professor BRUENNOW . . . . . to face page 367

Experiments on the Effectiveness of Photographic Telescopes of Different Focal Lengths [by Professor N. C. DUNÉR] 369

Elevations at Mount Hamilton 370

Meteor Fall in Arizona (Sept. 7, 1891) 370

Rainfall at Mount Hamilton (1880–91) 371

New Instruments for the Allegheny Observatory 371

The Milky Way is a Separate System of Stars [by Dr. DAVID GILL] 372

Dr. RUTHERFURD'S Negatives of the Moon, etc 373

Characteristic Forms within the Cluster in *Hercules*, by EDWARD S. HOLDEN 375

Diagram of the Cluster in *Hercules* . . . . . to face page 375

Gift to the Lick Observatory [by WALTER W. LAW, esq.] . . . 377

Proposed Dissolution of the firm of ALVAN CLARK & SONS . . 377

The Great Red Spot on *Jupiter* [by W. F. DENNING, F. R. A. S.] 377

Elements and Ephemeris of Comet *e*, 1891 (BARNARD, October 2) by W. W. CAMPBELL 378

The LADD Observatory (Providence, R. I.) 378

Scientific Visitors to the Lick Observatory (Professor SWAIN) . 379

Comparative Brevity of the English, French and German Languages in Scientific Writings 379

Errata in *Publications* No. 17 379

Additional Corrections to Watson's Theoretical Astronomy, by W. W. CAMPBELL. (*See*, also, Vol. III, pp. 87, 223) 379

Unusual Phenomenon observed on *Jupiter*, Sept. 29, 1891, by H. S. HURLBERT 380

Minutes of the Meetings of the Directors, November 16 and 28, 1891 . 381
Members elected 381
Rules governing the distribution of extra copies of the *Publications*, of reprints, etc. 382
Minutes of the Meeting of the Society, November 28, 1891 383
Officers of the Society 384
Officers of the Chicago Section 384
Notice to Members 384
